

The Early Years Conference 2012

The Development of Children's Mental Health: How Do We Become Who We Are?
February 2nd - February 4th, 2012

Vancouver, BC

This conference will stimulate dialogue, reflection, a deeper understanding of a child's total development as rooted in their earliest relationships, and may revolutionize our approaches and practices with young children, their families, and their communities. The conference aims to:

- *understand global development of children (birth to six years), and how it progresses through their early relationships and experiences

- *promote focused dialogue among individuals and groups who support early child development and learning

- *showcase exemplary approaches that support healthy early childhood social emotional development

- *learn how to apply the understanding of child development to practice and development strategies
